

The key to **Dy-Mark** quality:

Consistent Product

Consistent Colours

Consistent Dispersion

Dy-Mark Coatings

Founded in 1964, **Dy-Mark** has been producing quality marking products ever since. In the early 70's aerosol products and applicators were added to the range. Specialist brands such as **Spray & Mark**, **Spray Ink** and **Spray Writer**, were amongst the first aerosols developed. These brands have led to a loyal client base within government, defence, mining, construction, and in some of Australasia's most dynamic industries and retailers.

PEERS INDUSTRIAL

is proud to be the exclusive **Dy-Mark Coatings** New Zealand distributor from 1st September 2007. In NZ, we wish to provide a high level of customer service, the equal to the quality of the product itself. **"Stock service, delivered as promised, charged correctly."**

We aim to provide stock service for the key coating products.

The full **Dy-Mark** Coatings range is extensive, and most products are available to the New Zealand market. We will be actively seeking **your** wider requirements, so that we are able to supply you what you need, when you need it, please let PEERS sales team know of **your requirements**.

For the full **Dy-Mark** range, and detailed information please view www.dymark.com.au
