Zinc-Gal Galvanising Spray

A Zinc rich, high performance, corrosion protection product.
Gives true galvanic protection to steel and iron exposed to corrosive conditions.

A weld through primer for vehicle repairs, giving a clean burn from the weld area to avoid burrs or splatters.

The nozzle uses a fan spray application to give the surface a fine even coverage, with the fan insert able to be twisted to allow different spray formation

The product has also shown to be very effective in powder coating operations.

93% zinc in dry film 400 g can

39054013 Zinc-Gal Spray carton = 12

Silver-Gal

Silver bright Finish.

Bi- metallic rich formulation provides excellent protection from corrosion.

Designed to match bright finish of "hot dip" galvanising
Often used in conjunction with Zinc-Gal

350 g can

39053510 Silver-Gal carton = 12

Anti-Slip Paint

Creates a durable slip resistant surface.

Durable finish, which resists cracking or peeling.

Suitable for interior/exterior surfaces

Simple to apply

Resistant to petrol, oil and mild chemicals

Ideal for stairs, ramps, walkways and pool decks

Anti-Slip Spray
