

PRE-WASHED

AEROTEC
PRE-WASHED STOCKINETTE

“Like a cotton towel, stockinette (cheesecloth) is best when washed before use”

1. 100 % Cotton.

A natural, renewable resource, knitted into a cloth that improves with washing and re-use, that ultimately is biodegradable.

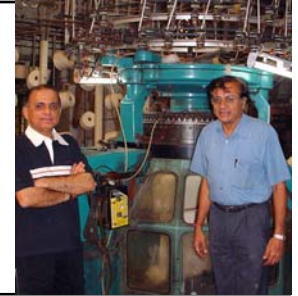

2. Strict Knitting Specifications

PEERS INDUSTRIAL

control Aerotec's manufacturing process, ensuring consistency for every roll.

From the thread count, to the openness of the weave, our specifications, that were developed in conjunction with trades people, are closely adhered to.

3. Hot Washed

to remove waxes and increase absorbency.

Aerotec is washed in hot, soapy water after knitting.

This removes the natural wax contained in cotton, as well the silicones used to aid the knitting process. The end result is a cleaner and more absorbent, wax free cloth.

4. Rolled, wrapped and labeled.

Aerotec is packaged in cellophane, to ensure the end user receives the cloth in perfect clean condition.

The branded label is bar coded, and lists features and benefits.

AEROTEC

Pre-Washed stockinette

(cheese cloth)

“Being cotton, stockinette requires a hot wash for absorbency, just like bath or tea towels”

- Softer
- More Absorbent
- Wax Free

Aerotec is supplied in various sizes, both in rolls, and in bulk precut form.

AEROTEC PRE-WASHED STOCKINETTE

PRE-WASHED
PRE-CUT PIECES

“Like a towel, stockinette is best if washed before use”

100 % COTTON

Consistent knit density

PRE-WASHED

More absorbent, as cotton's natural waxes are removed

PRE-WASHED BENEFITS

- More absorbent
- Less lint
- Cleaner
- Softer
- Individually wrapped
- Easy to handle delivery packaging

BEST VALUE

PRE-CUT PIECES FOR INDUSTRY

“we have made it easy for you”

- Pre-cut 300 x 750 mm piece size (approx.)
- Supplied in 20 kg bales, made up of 4 x 5 kg packs
- Pre-packaged for resale.

With the ever reducing supply of used mutton cloth, PEERS developed Aerotec pre-washed, pre-cut pieces, which have advantages of both new cloth and used mutton bags.

- Soft, absorbent cloth with an open weave
- Always available
- No wastage, no tears, no meat or bone residues
- Convenient pre-cut pieces for end user
- Pre-packaged for reseller
- Easy bale size for handling, and a good shape for storage
- Bulk available for economy

#3821/BULK	20 kg	(4 x 5 kg)
	60 kg	(3 bales)
	120 kg	(6 bales)
